

Spoke Sliders®

RF-711

This exciting item slides, clicks, whirls and moves in constant motion up and down on bicycle wheel spokes. Imprint appears on each insert. These black plastic sliders come bulk packed with instruction cards. They may also be polybagged up to 5 per bag with an instruction sheet. For polybagging: Add \$.15/r per bag.

Lite Slider®

RF-715 (Patented)

The hot unique LITE SLIDERS® come 4 per set for an economical way to reflectorize bicycle and some types of baby carriage spokes. They may be customized with your logo or ad copy and are great for bike races, cycle shops and special fitness giveaways. LITE SLIDERS® easily snap onto bicycle wheel spokes for greater user safety. Instructions are on the back of each set of 4.

RF-711 Spoke Sliders®

RF-715 Lite-Slider®

Spoke-Ads®

RF-710 (Patented)

This durable molded plastic item is reflective both sides for nighttime cycling safety. It also glows-in-the-dark, and clips onto bicycle wheel spokes. These SPOKE-ADS® have a large imprint area for your logo on both sides.

RF-710 Spoke-Ads®

Many of the safety reflectors shown here may be attached to bicycle spokes. The movement of the wheels tends to catch the motorist's eye, helping the rider to be seen more readily.
