

RF-723

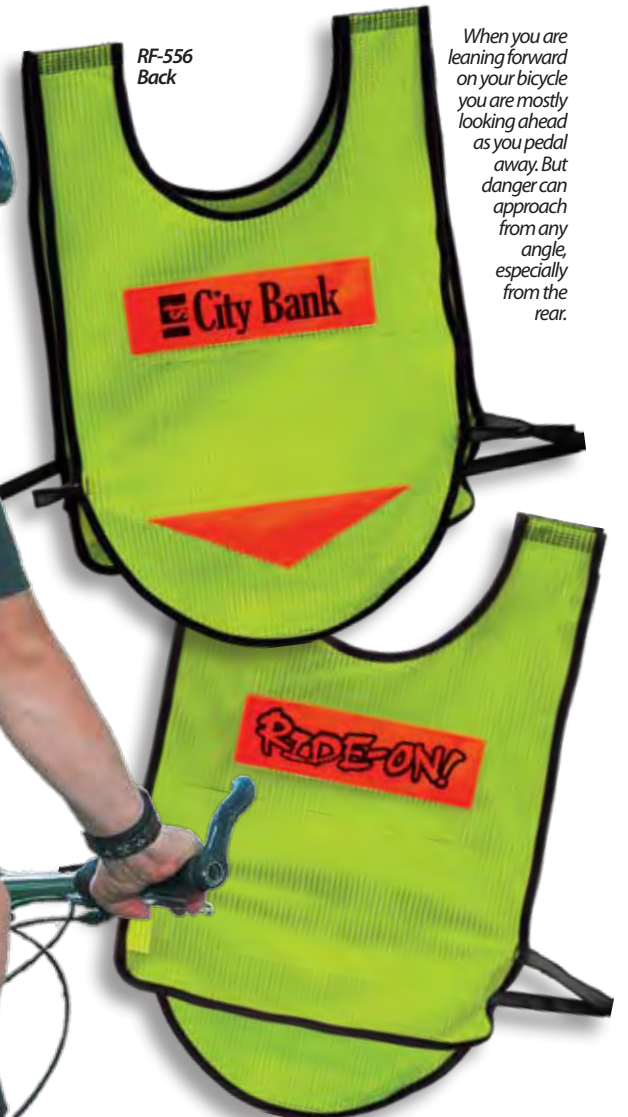

**Bike-Rite® RF-723**

*Four Reflectors in One Set (Patented)*

This is an ideal giveaway for cycle manufacturers, bicycle shops, triathlon and other competition races, schools, resorts, and health clubs. The **BIKE-RITE® REFLECTORS** are an exciting set of 4 cycling safety products all in one! Usage instructions appear on the back. A large 4" under-saddle Triangle comes with two adjustable fastening straps. Center Triangle as well as the pair of Lace-Tags™ and the Zipper Pull may all be custom imprinted.

**Cycling Vest RF-556**

This new-look **CYCLING VEST** is designed especially for cyclists to use. The long tail at the back of the vest has a triangular reflector at its base, and another reflector a little higher up. This is to enable you to more easily be seen by a motorist coming up on you from behind. A large reflector is featured across the front of the vest. The rectangular reflectors on the front and in the back may each be custom imprinted. The elastic strips with plastic adjuster buckles make the vests adjustable to fit most people. They are packed bulk in cartons. For individual polybagging please add \$.50/r each.
