

ANSI-COMPLIANT MESH AND REFLECTIVE STRIPING

HIDDEN POCKET INSIDE

3 HOOK/LOOP ADJUSTMENT POINTS ALLOW THIS VEST TO GROW FROM S/M ADULTS (48") TO 4X ADULTS (60").

FITZALL™ VEST RF-560 (Patent Pending)

The most practical ANSI Class-2 Vest on the market!

The Reflectix® high-visibility **FITZALL™ VEST** means you order ONE ITEM to meet all size requirements. Ordering, stocking and re-ordering is now as easy as ever! This vest expands from 48" (S/M) to 60" (4-5XL) to fit most wearers. It is made from breathable, soft, polyester mesh and has ANSI-compliant 2" wide reflective striping front and back, with hook-loop size adjustment. Available in Fluorescent Orange or Fluorescent Lime-Yellow.

These **FITZALL™ VESTS** are USA-made and may be ordered as a stock blank product or with a front and/or back custom imprinted reflective emblem. The emblem in the front is 4" x 4" and the emblem on the back is 4" x 9". (Fl.Orange reflectors on Lime vests. FL. Yellow reflectors on Orange vests. Black imprint.) These highly reflective emblems add to the safety of the wearer and there is a utility pocket on the inside of the vest.

ANSI Class 2 Vests are used where busy traffic conditions put workers close to vehicles traveling at 25 miles per hour or higher. Uses include those engaged in road maintenance operations, high-volume parking and/or toll gate personnel, airport baggage handlers/ground crews, general construction, utility and railway workers, emergency response and law enforcement personnel, survey crews, trash collection, recycling operations, school crossing guards, accident site investigators, delivery vehicle drivers, landscapers and others.

1 SIZE FITZALL™

(Patent Pending)
