

BREAST CANCER AWARENESS

The proper promotion of awareness campaigns helps to make these more successful. Our reflector products have been used throughout North America for many years to promote walks, runs and other fundraising functions to help fight Breast Cancer in women and in men.

You may order the Stock Products shown here, each with its specific slogan or you may order these with your Custom Imprint on its own, or incorporating one of the slogans. (Page numbers for custom printed products are shown below.) Our reflector color chart on Page 67 shows a Hot Pink and a Soft Pink providing you with a choice of two different Pink colors. Either color may be used when ordering these reflectors for your Breast Cancer Awareness Event.
